

App. No. 09/917,183

**REMARKS - General**

By the above amendment, Applicants have amended the title to emphasize the novelty of the invention.

The proposed claims should be allowable over U.S. Pat. No. 6,356,882 Carroll patent as unique and novel aspects of the current invention has been brought into the claims. Carroll does not disclose a mixing bin as in Claims 21-27, nor does it disclose rear connections to the controller as in Claims 15-20. The current invention also discloses an address book which is unique to this invention.

Also applicants have rewritten all claims to define the invention more particularly and distinctly so as to overcome the technical rejections and define the invention patentably over the prior art.

**Conclusion**

For all of the above reasons, applicant submits that the specification and claims are now in proper form, and that the claims all define patentably over prior art. Therefore the applicant submits that this application is now in condition for allowance, which action is respectfully solicit.

Respectfully submitted,
